

# EPM Partners

*EPM Partners' **EPM-Health-Check** is a system audit service to assess whether maximum value is being attained from your EPM system. By measuring system configurations against business requirements, **EPM-Health-Check** will steer your organisation towards the enhancements that will deliver the return on investment (ROI) that the system deserves.*

*Available for Microsoft Project Server 2003, 2007 or 2010, **EPM-Health-Check** is a fixed-scope engagement requiring an investment of \$6,400 (ex GST).*

*EPM Partners is a unique, end-to-end, service provider supporting the complete Microsoft Enterprise Project Management Solution*

## Identify immediate and long-term EPM system improvements with **EPM-Health-Check**

While **EPM-Health-Check** will provide immediate enhancements to your EPM solution, our consultants will also work with you to develop longer-term action plans to get even greater value from your EPM system investment

### The Deliverables

1. System Specifications & Business Suitability Report
2. Immediate settings and configurations changes and tuning
3. User Skills Assessment Workshop
4. Health Check Report & Action

The **EPM-Health-Check** focuses on:

- Assessing current Project Server system settings and configurations
- Assessing whether business requirements are being delivered by the solution
- Assessing skills of all EPM users
- Providing immediate, quick-win settings/configurations enhancements
- Developing action plans to develop improved support for business processes, knowledge sharing, system performance and reporting objectives
- The provision of a comprehensive assessment report and action plan

### Health Check Options

**EPM-Health-Check** can be targeted to suit your specific needs - for example by:

- Modifying the focus of the audit
- Extending user skills assessment
- Providing a purely technical health check
