

Portfolio Management Using Microsoft Project Online

Overview

Learn how Microsoft Project Online can help PMOs analyse projects to determine which of them will give you the best return on your investment of both budget and resources. This process is known as portfolio analysis.

Understand how Project Online creates a portfolio that is just a collection of projects or project ideas that you define, then how to apply portfolio analysis is an interactive way of choosing the projects that offer you the best business value that can be accomplished with the people and the budget that you have available.
